INDEX OF CLAIMED FIRSTS AND INVENTIONS

CLAIMED FIRSTS

Algebraic compiler..... 127,381
interpreter 227
American Telephone network 597
ALGOL Compiler 139
APEXC Machines ..... (figure)..... 558
Binary hard valve circuitry 66
Binary-coded computers 483
Bootstrap program 395
Chess player 598
Clock control 66
pulse 66
Comment statements 261
Compiler 155,227,234,434
(table of firsts) 157
(first substantial application).....239
(first use of term) 257
(first useful)..... 257
in its own language 227
writing system 177
Compiler compiler 434
Computer-controlled real-time radar network 377
Computer, solid state logic devices 473
Core Memory 239
Core planes .....(figure)..... 379
COLOSSUS 64
CRT 476
Delay Line 84
Digital computer for real-time applications 383
Dissertation (first in USSR) 182
on programming (first in USSR).....183
Electromechanical sieve 447
Electronic
binary counter 57
circuits studies 513
exchanges 86
inventory system 491
Excess 3-notation computers 483
Floating Point
notation (first?).....482
computer 483
Format statements 261
Fully programmable computer 506
High level programming language 213
Index Registers 434
(first mention in literature).....144
IBM 704 magnetic core memory 416
Large scale machine 397
Machine-directed assembler 395
Magnetic core memory 379

Maintenance manuals 83
Major computing activity 21
Manchester programming manual 86
Mechanical Translation (first experiments).....183
Mini-computer 384
Modern electonic computer 54
Modern order code 312
Monitorlike software 415
Monte Carlo problems 459
Nested subroutines 499
Operating system (on first generation machine).....177
Operator precedence in expressions 225
Optimization techniques 132
Page address registers 434
Parsing algorithms 227
Patent Application for Williams Tube 433
Photoelectric sieve ..... (figure)..... 450
Program 200
for ARC 554
Programming
book 500
course (first in USSR).....179
course (first in Soviet university)..... 180
department (first in USSR).....151
disseration on (first in USSR).....183
monograph 144
textbook 233
tools 233
Punched Card machine (first Japanese)..... 572
Real-time applications computer 383
Relay multiplier 583
Scientific Notation 462,482
Shift registers 66
Soviet computers 148
(table).....153
Stored Program
computer design 84
concept 336,443
Syntax description 132
Systems
engineers 390
programming languages 177
Textbooks
(first in USSR)..... 162
on computers (first in USSR)..... 180
on programming (first in USSR)..... 180
Thermionic valves (first usage) 59
Thinking Machine (first use of term) 594
Two-state circuits 66
University course (first in USSR)..... 155
Virtual storage 434
Visual displays 375
Voigtlaender camera 594
Von Meumann type machine 476

Williams Tube patent application 433
World computer chess tournament 168

CLAIMED INVENTIONS

Address modification 434
Binary search tree 168
Closed subroutine 499
Indirect addressing 519
Magnetic
drum 407
store on steel plates 601
Mercury Delay Lines 312
Metronome 591
One-step addition 513
Orchestron 592
Paging 434
Parametron 577
Telegraphon 601
Virtual memory 434
